Dixie Highway from Ashland to Lex-

"She said that Carrie Campbell had  
threatened to shoot her and that Car-

of the screen door she shot her, ac-  
cording to Barney Cotton's statement  
to me."

"When I asked her what the trou-  
ble was over she refused to make a  
statement," White said.  
Barney Cotton surrendered to the  
officers a .32-special pistol, with  
which the shooting was done.

Carrie Campbell was shot near the

## EIGHTEEN MILLION WILL BE AVAILABLE

Plans for Road Con-  
struction for 1924-25  
Under Way.

TENTATIVE PLANS

Certain Sums Apportioned Over  
Districts—\$500,000 Set  
Aside for the Admin-  
istration.

Associated Press.

FRANKFORT, Ky., July 11.—With  
\$18,000,000 estimated as available for  
road construction in the next two years  
the state highway commission has ar-  
rived at a tentative plan for this con-  
struction during 1924 and 1925. W. C.  
Montgomery, chairman, said today.  
In this plan, the anticipated funds  
for the two-year period were distributed  
between the four commission-ers'  
districts, as well as maintenance, ad-  
ministration and emergency funds, he  
said. Under the tentative plan the  
commission proposes to build uncom-  
pleted portions of main highways on  
the state system, he added.

"An estimate of funds available in  
the next two years reaches a total of  
\$18,000,000," he announced. "This es-  
timate was adhered to by the com-  
mission as a basis for apportioning cer-  
tain sums to each commissioner's dis-  
trict."

The apportionments follow:  
District No. 1, represented by R. W.  
Owen, \$3,000,000.

District No. 2, represented by W. C.  
Montgomery, \$1,750,000.

District No. 3, represented by W. C.  
Hanna, \$2,750,000.

District No. 4, represented by E. S.  
Helburn, \$1,000,000.

These, according to Mr. Montgomery  
make a total of \$11,500,000, and the  
balance is to be distributed as follows:  
Five million to maintenance, \$500,000  
to administration, and \$1,000,000 to  
an emergency construction fund.

"It should be understood that this is  
a tentative plan for the next two years  
and it may be changed slightly at the  
discretion of the commission," he said.  
Mr. Montgomery spoke of the recent  
hearing of delegations before the com-  
mission for the purpose of deciding up-  
on roads to be constructed or recon-  
structed.

"This plan of determining beforehand  
the work to be undertaken is forward  
looking for several reasons," he said.  
"It permits people of each county and  
neighborhood to know just what road  
will be constructed within a certain  
period; it permits the department's  
work to be carried on more systemat-  
ically from beginning to end."

"Location surveys can be made, the  
bridge and road plans completed, work  
advertised, and awards made in plenty  
of time for contractors to purchase the  
supplies and equipment, detours can be  
carefully selected and repaired, right  
of way secured, and all other details  
worked out in an orderly way which  
will result ultimately in saving to the  
state."

## Proposes Forming An Athletic Club Here

Plans for organizing an athletic  
club are announced by C. A. Miracle,  
proprietor of the new pool room on  
Cumberland avenue in the building  
adjoining the J. C. Burke jewelry  
store.

There is a large space at the rear  
of the establishment which could be  
used for boxing, Mr. Miracle says,  
containing plenty of room for a mat,  
seats and other things necessary for  
a fighting ring. It is thought that a  
number of other men will be inter-  
ested in cooperating in plans for  
learning the many art and those who  
wish further information are request-  
ed to communicate with Mr. Miracle.

## PLEDGE SUPPORT TO FRED SACKETT

Democrats and Republicans Claim  
They Will Support Him in  
Senate Race.

LOUISVILLE, July 11.—Announce-  
ment by Fred M. Sackett, candidate  
for the Republican nomination for the  
United States Senate, of his advisory  
committee has resulted in hundreds  
of letters being received at Sackett  
Campaign Headquarters here, from  
both Republicans and Democrats,  
pledging support to his candidacy.

Many prominent Republicans have  
promised to work diligently toward  
his nomination, while Democrats in  
all walks of life have written that  
should Mr. Sackett be the choice of  
the G. O. P., they will cast their bal-  
lot for him in November.

Although he has never been a can-  
didate before, for any office, Mr.  
Sackett has served his state and na-  
tion in positions of trust and respon-  
sibility. During the war he was Fed-  
eral Food Administrator for Kentucky  
and upon Edwin P. Morrow, being  
elected Governor he was appointed to  
the non-salaried position of a mem-  
ber of the State Board of Control  
which was changed by an act of the  
Legislature the following year, to the  
State Board of Charities and Corre-  
ctions. In this post he accomplished  
many economies for the state and  
made an enviable record for integrity  
and honesty.

## CERTIFICATE SALE ORDERED STOPPED

Government Will Not Issue at Present  
Rate—To Be Effective  
July 15th.

By Associated Press.

WASHINGTON, July 11.—The  
treasury today ordered suspended all  
issuance of Treasury Savings Certifi-  
cates, effective July 15. Acting Sec-  
retary Wilson said that present  
money markets did not warrant the  
treasury paying four and one-half per  
cent interest on savings certificates  
when funds are obtainable at a much  
lower rate of interest.

## McAdoo Has Nothing To Say On Defeat

NEW YORK, July 11.—"I have  
nothing to say."

This was the only comment William  
G. McAdoo would make on the out-  
come of the democratic national con-  
vention, in which he was one of the  
leading figures.

Asked the direct question of whether  
he would support the Davis-Bryan  
ticket, McAdoo looked up from his  
breakfast only long enough to repeat:  
"I have nothing to say."

## Boosters to Play Coxton Here Sunday

Middlesboro Boosters are slated to  
meet the Coxton boys at the East  
End ball park at 2:15 Sunday after-  
noon. It will be remembered that the  
other time the two teams met, the  
game was not finished on account of  
the rain. Both sides are hoping that  
they will have better luck Sunday.

Winning the contest with Benham  
on July Fourth put now heart into the  
local boys and those who attend the  
game are very likely to see the Boost-  
ers add another scalp to their collec-  
tion.

## To Make First Address After Notification Ceremony.

THIRD PARTY PLANS

McAdoo Non-Committal, Though  
Third Party Talk Is Pre-  
valent—Bryan Is  
Pleased.

By Associated Press.

NEW YORK, July 11.—After a  
good night's rest at his country home  
in Locust Valley, the first he has had  
since the Democratic Convention  
opened, John W. Davis today returned  
to New York to tackle the problem of  
reorganization of the National Com-  
mittee and the selection of a chairman  
for the National Committee.

He had a long talk with Cordell  
Hull, chairman of the National Com-  
mittee, and other party leaders.  
Davis will make his first public ad-  
dress on election issues at the notifi-  
cation ceremony. After the confer-  
ences, the nominee expects to spend a  
quiet week at home.

Doubt about the attitude of William  
Jennings Bryan toward the ticket  
seems to have been dispelled by  
Bryan's statement that his support  
will be forthcoming. Bryan and his  
brother, Charles W. nominee for vice-  
president, dined with Davis last night.  
There remains some wonder about the  
position of W. G. McAdoo. The New  
York World today prints a story sug-  
gesting that McAdoo may form an  
other party and possibly aid William  
Randolph Hearst whose newspaper  
indicated that the publisher was dis-  
pleased with the choice of the con-  
vention.

By Associated Press.

WILLIAMSPORT, Pa., July 11.—  
Miss Pauline Hessler, who gradu-  
ated from the high school at Hughes-

more than 6,500 miles on horseback  
during the four years of her school  
course, she estimated, having ridden  
a pony from her home to school and  
back each day.

Last year Miss Hessler rode 1,600  
miles from the time school opened  
until commencement. She declared  
the exercise "brushed the dust" from  
her brain and made her able to think  
and work better.

dered to the Soviet Union, and also on

creation of the Bolshevik cavalry and,  
until his retirement, was technical ad-  
visor to the Red Army.

## HELP THE POLICE ENFORCE THE LAW

The efforts of the police to reduce the speed attained by some auto drivers should be encouraged by every citizen making himself a committee of one, to see that no traffic ordinance or police rule that obtains for safer traffic is broken. As a rule Middlesboro drivers and visiting motorists break few traffic rules. The town is not cursed by many who drive without respect to the safety of others.

However, new parking rules are needed on Cumberland avenue and the enforcement of the present rules where they obtain. It is a common occurrence to see some machine parked at an angle to the curb, that makes it impossible for other drivers to park or remove a car after it is parked. Another practice which the police should discourage is that of stopping between blocks and blocking traffic. The individual who stops his car midway in the block and shouts at his friend on the sidewalk to come fourth for a visit and blocks traffic from one to five minutes should have official notice to move on, and later a fine if the practice is not discontinued. Not all drivers in parking, respect the white lines at fire hydrants, street crossings and alley openings. None of these ordinances and rules are hard to comply with and if they are not respected the police should hail the offender into police court and remind him of his duty as a citizen.

## THE DEMOCRATIC CHOICE-MR. DAVIS

The nomination of John W. Davis or West Virginia while not suiting the progressive wing of the democratic party, is one taken all in all a wise choice. Coming up from a small town lawyer, Mr. Davis has a good record as a public official and a citizen and the wonder of it all is that after the two weeks of political flux, the convention should have settled down sufficiently to nominate a man of Mr. Davis' calibre.

With President Coolidge as the standard bearer of the republicans and Mr. Davis heading the democratic ticket, the future of the United States takes on a much more rosy tint than that of four weeks ago. The nomination of Mr. Davis was a wise one from a business standpoint if not from that of party. But whatever art the ebb and flow of political fortune turns this fall, the assurance is that the government will have an American citizen at the helm of government that will meet up to the requirements of the hour. Neither of the old party candidates have any half baked political theories to work out and neither will if elected.

While the European situation leaves some things to be desired yet on a whole the condition continues to improve from day to day. The rigid Poincare policy has been rejected by the French people and the labor seems to be steering a course between shoals that is safe and that will bring order in the end. The Ruhr expedition which amounted to a failure has a tacit repudiation by the French and after more endless filing and tacking the report of the Dawes commission will be the basis on which a full understanding will be reached between them and Germany.

The settlement of European difficulties will mean a world wide resumption of the business of peace time pursuits. With her finances the best among the powers, her basic industries in fine condition, business in the United States should resume this summer without a lingering doubt as to the outcome of the election this fall.

Somewhat we can't quite sympathize with a gas station proprietor

when he gets held up and can't help exclaiming with our old friend Asop "Ha, the bitter bit."

The Republica of Santo Domingo expect to inaugurate a new president and vice-president tomorrow without the regular revolution which goes on to show that there is mighty little in our sister republic now-a-days.

More than 45,000 farmers have used 8,000,000 pounds of picric acid and we suppose Rhode Island won't have sessions of the legislature now until Mr. DuPont gets his stock built up again.

We suppose that William Gibbs McAdoo when he looks over the European battlefields will say: "Well it must have been quite a scrap but nothing like the fight we had in New York that time."

Some of these days soon we expect to stage a quiet little party down at the Hotel Cumberland of three friendly progressives, Jimmie Cox, George Brennen and ourselves, and decide just to whom the credit should go for that Davis nomination.

Our office expert reported this morning, after calculations that have extended over several months, that the labor in whitening shoes this summer equals 56.725 percent of that used in powdering noses in the same duration of time.

The naval expert of our friends the British, estimate that Japan would have American interests in the Pacific knocked into a cocked hat in about fifteen minutes, which if they will pardon us in reminding them, was what they said they, our friends the British, would do to the Turks in the Dardanelles that time.

Mr. Nelson, manager of Mr. La Follette's party says: "We" meaning Mr. La Follette and himself, "I have a good chance to win and nothing to lose." Which means in effect that "We don't give a tinkers' arnetha what becomes of the rest of the country so we have our way."

The next time Candidate John W. Davis drops into our elegantly appointed office we expect to, as a friend, take him by the second button of the vest and say in our usual smiling manner: "Now honest J. W. as man to man, don't you think us progressive democrats made a wonderful

According to what we can glean from the estimable Cincinnati papers whose well known dry proclivities are shouted from the housetops on any and all occasions, a mighty wave of relief has come over the serious ranks of Queen City democracy at the nomination of John W. Davis and then we can't help thinking about that speech that our old Nebraska friend William Lynch made in the convention. Among those present at the time that time.

## Is The Lumberman Responsible?

Will they deliver our supplies on time? Will they give us the best for our money? Those are a few of the questions you ask yourself when you start to build. We try to put ourselves in the place of our customers and see if we do things the way we would like to have them done if we were doing the buying. We know our lumber is the best quality we can buy, so the only question we ask is, do we do everything we can to help you with your building problems. If we don't and you know what the thing is we don't do, tell us and we will try to do it.

Our motto is service to our customers. Service is a word that means a whole lot and if you buy from us we will show you that we know what it means and do even more.

What can we women do to help the wheat grower this year? The only remedy for low prices of wheat is greater consumption of this staple. We must learn to use more of it and to use it in new ways.

# PAPER CLOTHES. NO FAKE WHIP CREAM

White of Egg Commercial Milk Cakes Quite Well in the German Republic.

Associated Press  
BERLIN, July 11.—The sale of whipping cream, outlawed early in 1914 as a war measure, is again permitted in Germany by government order.

This is the last of the food to be taken to be removed within a few days of the announcement every city house in Berlin was serving whipping cream in such amounts that the health authorities have figured it was stated, "I am certain that a substitute of white or egg evaporated milk and other preparations was being used."

# WATCH YOUR CORKS. ARE THEY LABELED?

Cork Makers Warn Printer Markings On All Corks That Are Imported.

Associated Press  
WASHINGTON, July 11.—The provision of the tariff law requiring that all imported commodities bear the name of the country of origin is preventing knotty problems to the customs service, the latest of which has been brought forward by domestic manufacturers of corks, or plan bottle stoppers.

Certain home manufacturers have filed a complaint that foreign corks are not properly marked and, for two years, there have been hearings and legal arguments, and much looking up of law and precedent. The claim was made that each and every cork must be labeled, and the treasury department knows what to do for it. It does not see any way in which an individual cork can be identified.

# WORMS IN CHILDREN STILL IN STYLE

Don't Allow the Baby to Crawl In a Dirty Yard, Or On a Floor.

Associated Press  
LOUISVILLE, July 10.—In our grandmothers' time each spring all children were given a course of worm medicine. Today we hear a little about worms in children and many think the mother who recently told when told her little child had worms. Why I am sure he is not a worm. Worms live in the soil.

But children do have worms more often than the mother realizes. Children who are allowed to crawl over a dirty floor or in a dirty yard mix their hands with the dirt and then eat. The State Board of Health will send you a specimen to be examined at the laboratory without any cost to you. It is an absolutely sure method of knowing if the child has worms. Then he can be treated accordingly.

There are three types of worms found in children: the round worm, the pin worm and the tapeworm. The children in the mountain counties sometimes have hookworm. Tapeworms are often found in Kentucky. Pin worms and round worms are common in all parts of the country. The pin worm is the most common and it is the most annoying. It is a small worm which resembles a string. That is our aim.

# CRABS LIKE COCONUTS

Planters on the South Sea Islands are compelled to protect their coconut palms, to keep a species of crabs from climbing up after the coconuts.

# GERMS ON PAPER MONEY

Paper money carries fewer germs than are frequently found in a good grade of milk.

# CLUTTERED ICEBOXES DELAY ICEMAN

Don't Ask Him to Pack in Tight Spaces. The Ice Chamber Delays Service.

CHICAGO, July 11.—Your ice man provided he is in average route and a distributing territory in the residential district holds two tons of ice a day, carrying each piece a distance of 30 feet according to a survey compiled by the National Association of Ice Industries.

These 1000 pound or ice are delivered among approximately 80 refrigerators, the average size and the field of work cover an average of two or three miles.

An ability to find the physical limit of a threat of impeding, is a key factor in the ice business. In keeping on schedule the ice man is a man who is endeavoring to put ice into the hands of the consumer as quickly as the transportation system.

The ice man's greatest trouble is keeping on schedule time because he is in expert in arranging their paths to the best possible condition. Often he has to unpack and repack the ice chamber. This is the most out-standing cause of delay.

The delivery system in the city is a complicated one. The ice man has to make a round trip in the city and back to the warehouse. The most serious trouble is that of a pin worm which occurs most of the year. That is our aim.

**Why the English drink so much Tea**  
Drink tea at 11 o'clock and you will be able to finish out the morning satisfactorily. Drink it in the afternoon and you will be able to end the day without fatigue.  
This is because tea is abundant in vitamins—nature's re-vitalizers. Because of them, tea is a quick-acting stimulant. It quenches your thirst deliciously. And you feel better at once. It refreshes you, soothes your nerves and furnishes new vigor. The English discovered all this. Small wonder they drink so much tea.  
Drink tea in the morning and again with your lunch. Drink it in the afternoon and with your evening meal. You'll feel better all day if you do this. You'll be steadily cool and comfortable.  
Critical housewives—women who are most fastidious about what they buy and drink, and serve—look upon the Maxwell House brand as the best tea insurance. They know it guarantees quality. Maxwell House means genuine goodness—thoroughly trustworthy at all times. No matter what your tea taste, Maxwell House will please you.  
For sale at all the best grocery stores, in two-ounce quarter-pound, half pound and pound tins. Also in individual tea balls—250 and 500 to a carton.

## STRONG CAST FOR TALMADGE FILM

Noted Screen Players Support Miss Constance In 17th Century Romance.

The cast of "The Dangerous Maid," a First National picture, is the greatest ever selected to support Constance Talmadge. It will be shown at the Manring Theater tonight.

Besides Constance Talmadge, there are Conway Tearle, her leading man; Morgan Wallace, Tully Marshall, Marjorie Daw, Charles Gerrard, Lou Morrison, Otto Matiesen, Wilson Hommel, Kenneth Gibson, Ann May, Kate Price, Thomas Ricketts, Phillip Danham, Jack Dillon and Ray Hallon. It is a Joseph M. Schenck production.

The story of "The Dangerous Maid" is laid in the turbulent times when the Duke of Monmouth rebelled against King James II of England. Constance Talmadge has the role of a madcap little rebel who dons a cavalier's sword and costume and engages in a thrilling series of adventures with the officers of the king.

The story gives Constance her first opportunity to play a dramatic role, and the picture, although it contains many humorous situations, is replete with romance and love interest, and is embellished with superb sets designed by Stephen Goossion.

Stock consists of Ladies and Children's Ready-to-Wear; Boys' and Men's Clothes; Ladies' and Children's Hats, Shoes, and Oxfords at greatly reduced prices. Big Ben Overalls \$1.49

Men's Athletic Underwear BVD Style 40c
